

Dear Potential Sponsor:

KAOTIC Robotics is looking to partner with businesses such as yours in our region. We are inviting you to support and become involved with our team.

### *What We Did*

We were excited to be able to compete in-person this past season in FIRST's game called Rapid React sponsored by Boeing. More info about the game can be found at <https://www.youtube.com/watch?v=LgniEjI9cCM>. Once the robot was built, the team participated in two regional competitions. The first was in Grand Forks in March and the second was in Minneapolis in April. We also got to compete with our last year's robot in our conference event held back in October of 2021. We made it into the playoff brackets in all of the competitions! We also grew by leaps and bounds in our business area.

### *Looking Ahead*

Our new game reveal is on January 7 and we could not be more excited! The name of the game is Charged Up presented by Haas and the Gene Haas Foundation. This year's team is made up of a great group of rookie and veteran members who are the future of our team and your future workforce.

KAOTIC Robotics is committed to promoting all our sponsors throughout the year. We have 5 levels of sponsorship. The amount can be for a monetary donation or material/product equivalent. The levels are:

- Friends of KAOTIC Robotics – up to \$100 - team newsletter and name listed on team website.
- Bronze - \$100 to \$499. Friends level plus name mentioned on social media platforms. (kaoticrobotics.org)
- Silver - \$500 to \$999. Bronze level plus name on team shirt and spotlight on social media.
- Gold - \$1,000 to \$4,999. Silver level plus logo on team shirt and name on robot.
- Platinum - \$5,000 and up. Gold level plus logo on robot and name announced during team introductions at regional competitions. (Please provide stickered logo, if available.)

Sponsorship is an investment in the future of each student and we truly appreciate it. For more information, please contact the Business Mentor, Jessi Schaefer by phone at 218-298-1446 or by email at [kaoticrobotics@gmail.com](mailto:kaoticrobotics@gmail.com).

Sincerely,

Eric Schaefer
